Hi! I'm Madhumitha, a passionate full-stack developer currently pursuing a BTech degree in Information Technology at Bannari Amman Institute of Technology. I have a strong foundation in web development and a keen interest in creating dynamic and responsive web applications.
My journey in technology has equipped me with skills in various programming languages and frameworks, including JavaScript, React, Node.js, and MongoDB. I thrive on solving complex problems and am always eager to learn new technologies to enhance my skill set.
When I'm not coding, I love exploring new ideas and collaborating with others in the tech community. I'm committed to continuous learning and growth in this ever-evolving field.
